TAI CHI

A set of linked poses to enhance balance, fitness, and longevity. It's highly dynamic, but constitutes a demanding workout involving the mind as much as the body.

ROCK STEADY BOXING

THE BALANCE CLASS

Designed to help you become stronger and improve balance, focusing on strength and power around the ankle, knee, and hip joints. This class is designed for fall prevention and suitable for all levels.

TOTAL BODY TRAINING

This class will blend a variety of movements to give your entire body a great workout! The exercises are performed in intervals to rev up your metabolism, providing a good cardio/strength workout. Various equipment will be used. Warm ups and cool downs are included.

YOGALATES

Yoga and Pilates work together in this class to stretch, strengthen, and reduce stress. Nothing maintains and improves flexibility like yoga and nothing strengthens the core muscles better than Pilates. Together they provide a full workout that leaves you relaxed, renewed, and ready to enjoy life.

YOQI: Yoga + Qigong

This class combines two ancient, complementary practices for health and longevity: the static postures of yoga to build strength and flexibility, along with the gentle, flowing movements of qigong to enhance suppleness and agility. A wonderful way to renew energy, transform stress, and clear the mind.
